KOREA TO INCREASE VIET FORCE

TO SHIELD 'LITTLE MAN FROM BIG EAR' . . .

FCC Prohibits Private Eavesdropping Devices

Washington (UPI) — The Federal Communications Commission, giving an exception to police, Monday barred private use of all electronic eavesdropping devices ranging from a transmitter in a martini olive to bugged packages of cigarettes.

Wiretapping already is illegal. The FCC exercised its jurisdiction on miniature eavesdropping devices on the ground that signals are carried by radio, not wire.

Chairman E. William Henry said the new rules, adopted unanimously by the FCC, were designed to protect "the little man from the big ear."

\$500-A-Day Fine

The rules apply to all radio devices, whether licensed or not. Violators will be fined

\$500 a day for each offense, the FCC said.

The rules become effective April 8.

Henry said the rules were a result of the growing use of the miniaturized devices. However, Henry said, there was little that could be done previously about their use because there were "no rules or books to cover."

Henry said the regulations were aimed primarily at "private parties." Otherwise it would appear that the FCC was "setting ourselves up as sort of a superlegislative body," he said.

The FCC said its regulations reflected "growing public indignation with increased intrusions into the traditional right of privacy."

Unless All Consent

The FCC specified that the rules apply "unless all parties to a private conversation"

Callan Says He Hasn't Lost

Round Yet For First District

By DON WALTON
Star Staff Writer

Democratic Rep. Clair Callan said Monday he has "not lost one round yet in the things I have wanted to see done" for the First Congressional District.

Callan, who filed earlier in the day as a candidate for reelection, noted that he has won struggles with the Johnson administration over retention of Lincoln's Veterans Administration Hospital and for increases in soil conservation funds.

The congressman told a news conference he expects to oppose the administration on a number of issues again this session, including reduced funds for the school milk and lunch program, conservation, agricultural research at land-grant colleges and federal education aid for impacted areas.

Independent

"I have exercised independence of judgment on legislation, opposing those proposals I have felt were not in the

best interests of the state and the nation, and supporting those which were," Callan declared.

Profound Effect

The plan, providing for shipment of American agricultural products to hungry nations which are willing to help themselves, would have "a profound effect on agriculture," Callan said.

Callan said he also opposed the administration in 1965 on proposal of Section 14B of the Taft-Hartley Act, Social Security financing for hospital care under the medicare bill, and the highway beautification bill.

Opposition

In addition to budgetary disputes this year, Callan said, he will oppose the administration on its proposal to extend congressmen's terms from two to four years.

Callan said the war in Viet Nam is "not a political issue . . . not a partisan matter. Responsible people on both sides support the administration policy in Viet Nam."

A major task facing the current session is enactment of the new business and job opportunities for the First District."

Lincoln Council Votes To Legalize Left Turns Between Intersections

By BOB SCHREPF
Star Staff Writer

The City Council Monday voted to legalize left turns between intersections on the city's arterial streets.

The amended new law will permit a motorist to cross the center line and enter an alley or private driveway, or drive from alley to alley, "at his own risk" and only if the vehicle does not interfere with other traffic or pedestrians.

Only Councilman John Sellick voted against the ordinance, saying "it is wrong . . . it weakens our basic traffic laws."

Opposition

The left turn measure was also opposed by City Traffic Engineer Robert Holsting, Mayor Dean Petersen, the police department and businessman Larry Price, who said it would result in tying up traffic.

It gained the support of several other Lincoln businessmen who again appeared to speak in favor of the ordinance.

Council members asked for periodic reports from the police on the number of violations of the new ordinance and whether there is any significant change in accident rates.

The council also approved, 6-1, an ordinance which will

increase the distance which projections on buildings can intrude into the side yard area required by the zoning ordinance.

The new formula will allow a projection of 24 inches, or two-fifths of the required area, whichever distance is greater. The old limit was 12 inches.

The City-County Planning Commission recommended the new limits after it was brought to the council's attention recently that for several years the city has allowed buildings to project into the side yard more than the legal limit.

'Too Close'

Councilman John Comstock voted against the ordinance, arguing that the new provision will allow buildings to be built too close to each other. "I think people in Lincoln are entitled to as much light and air as people in other towns," he said.

In other action, the council passed, 4-3, a change of zone from A-2 single family to G-1 local business on a 9.8-acre tract located on the south-

BUYERS

are centering their attention on the Merchandise Section of the Journal-Star Want Ad section. Here's a sample result:

Comics 21 in. TV. Perfect condition. Reason for selling. bought colored. 4547-Axx.

Said the advertiser, "Only ran one day. Sold it already!"

Anytime is buying time and it's time for you to take advantage of the buyer audience of the Journal-Star Want Ads.

A 10 word action ad for 10 days appears in both the Journal and the Star for only \$4. pay for only the number of days the ad appears.

POLICE SUBDUE RIOTING WORKERS

About 150 union men—some wielding pipes, clubs, hammers, wrenches and knives—staged a bloody riot at a downtown Miami construction project Monday.

Six were hospitalized, 14 others arrested. Policemen and firemen quelled the jurisdictional fight.

The battle between members of two unions involved a dispute over which one should lay pipes for electrical cable for a new bridge over the Miami River. One worker was stabbed in the shoulder; another had a broken arm.

Plane Hits McDonnell Plant; 2 Astronauts Die

BUILDING HOUSES GEMINI 9 CAPSULE

St. Louis, Mo. (UPI) — U.S. astronauts Elliot See Jr. and Charles A. Bassett II, the primary crew of the planned Gemini 9 space flight, were killed Monday when their jet plane crashed into the building housing their space capsule.

The backup crew for the flight tentatively scheduled in May, Air Force Lt. Col. Thomas P. Stafford and Navy Lt. Cmdr. Eugene A. Cernan, were named late Monday to replace See and Bassett.

Stafford and Cernan, who were following See, 38, and Bassett, 34, to the McDonnell Aircraft Corp. plant here for space training, landed their T38 trainer safely minutes after See and Bassett crashed into the McDonnell complex where the Gemini capsules and Phantom jet fighters are built.

Gemini 8 Unaffected
The accident will have no impact on the Gemini 8 flight and "hopefully it will have no effect on the Gemini 9 flight," said Paul Haney, the Manned Space Center's public relations director who arrived here Monday afternoon from Houston.

He said the crash occurred after See advised Stafford, piloting the other plane, also a T38, that he was going to try an instrument landing. Haney said that was the last Stafford heard from See before swerving away to permit See's landing. Neither

Bassett See

Stafford nor Cernan saw the crash, Haney said.

Twelve persons working in a McDonnell engineering office were injured. Some were knocked from their chairs when the plane hit the roof directly above them.

Both planes had left the Manned Space Center at Houston earlier Monday. The cause of the crash, which cut the U.S. space team to 31 astronauts, was not learned.

The plane was approaching for an instrument landing at the municipal airport in what the Weather Bureau described as light fog. Light rain and snow were falling. The Weather Bureau said visibility was 1½ miles, the ceiling 800 feet.

"I was standing on (a nearby) parking lot when I heard the plane coming," said Ken Stovall, 33, of Ferguson, a St. Louis suburb.

"I looked and saw he was broken over quite sharply at an angle, and his approach to the ground was much too steep. I do some flying myself, privately, so I knew it," Stovall added. "I watched him pilot."

See into the corner of the building and I knew the pilots didn't have a chance."

Other witnesses reported seeing "a ball of fire."

The plane cut a gash in the roof and top of the 50-foot-high building before bursting into flames on the parking lot. All that remained after the fire was extinguished was charred wreckage.

Vincent Arrigo, a worker inside the building, said a small fire on the roof was quickly extinguished.

Two Roman Catholic priests administered the last rites to the astronauts.

Second, Third

See and Bassett became the second and third astronauts to be killed since the manned space program began in 1959.

Air Force Capt. Theodore C. Freeman, 34, was killed Oct. 31, 1964, when a gosse struck the windshield of his T38 as he was making a landing at Ellington Air Force Base near Houston after a routine training flight.

See was to be command pilot of the Gemini 9 two-to-three-day rendezvous and docking mission. Bassett, the pilot, was to have taken a 90-minute space walk, highlighted by a test of a new maneuvering backpack.

The next orbital flight, Gemini 8, is scheduled for March 15. Taking the two-day flight will be astronaut Neil A. Armstrong, a civilian and the command pilot, and Air Force Maj. David R. Scott, the co-pilot.

"I was standing on (a nearby) parking lot when I heard the plane coming," said Ken Stovall, 33, of Ferguson, a St. Louis suburb.

"I looked and saw he was broken over quite sharply at an angle, and his approach to the ground was much too steep. I do some flying myself, privately, so I knew it," Stovall added. "I watched him pilot."

"I was standing on (a nearby) parking lot when I heard the plane coming," said Ken Stovall, 33, of Ferguson, a St. Louis suburb.

"I looked and saw he was broken over quite sharply at an angle, and his approach to the ground was much too steep. I do some flying myself, privately, so I knew it," Stovall added. "I watched him pilot."

The plane was approaching for an instrument landing at the municipal airport in what the Weather Bureau described as light fog. Light rain and snow were falling. The Weather Bureau said visibility was 1½ miles, the ceiling 800 feet.

Good Channel Flow Of Platte After Repairs

Omaha (AP) — The Platte River was flowing fast and free near Gretna Monday after emergency repairs to private levees were completed over the week-end.

The two breaks in the levees have caused considerable overflow on low lying farm lands after an ice jam choked the river. Col. Harold J. St. Clair, Omaha District Army Engineer, said the water is flowing under the ice and there is a good channel.

In Clean-Up Stage

George Thul, project engineer for the Army Engineers, was at the site Monday with a few contractor employees cleaning up the last phases of the work. The contractor was hauling in a little more rock and dirt to fill in places where minor seepage occurred.

The river and the levees are in good shape, Col. St. Clair said.

Driver May Be Charged In Fatalities

Beatrice — A coroner's jury Monday night found that three auto fatalities of three days ago were the result of "a felonious act" by the driver of one of the two cars involved.

County Atty. Arnold Wulfschleger indicated that the charges of motor vehicle homicide will be filed against Milo Lyons, 24. Testimony indicated the driver had been under the influence of alcohol and was speeding on West Court St. when the Friday tragedy occurred.

The verdict by the 6-man jury, picked at random by Sheriff Fred Steinkamp, came after some 40 minutes of deliberation. Fourteen witnesses were called and the jury viewed the bodies in a local mortuary.

Lyons' sister-in-law, Mrs. Frank Lyons, 29, died Monday as the third victim of the downtown crash. Also killed were Harry Counts, 68, and John Cook, 75, both of Beatrice.

Mrs. Lyons' husband, Frank, was reported in fair condition along with Mrs. Nancy Eggett of Beatrice and Milo Lyons.

A daughter of the Frank Lyons', six-year-old Linda, has been released from the hospital. Two other Lyons children, Albert, 7, and Edward, 9, were not in the car.

Todd Flessner, 18, Beatrice, rider of a motorcycle involved in the crash, suffered a broken wrist.

The death brings the 1966 Nebraska highway death toll to 49, compared with 58 at this time a year ago.

Wage-Price Guidelines

By WILLIAM O. DOBLER

If President Johnson did have a honeymoon, it is over. The war in Viet Nam has strained his relationships with Congress and now his economic guidelines policy has organized labor nipping at his heels. The problem with labor is that it feels it has nowhere else to go, thereby weakening the hand it has to play in its contest with the administration.

The administration did not push hard enough for repeal of 14B of the Taft-Hartley Law to suit the AFL-CIO but it was officially for repeal.

This is more than can be said for the Republican party whose main congressional spokesman, Sen. Everett M. Dirksen, fought the repeal measure with a successful filibuster. Recognizing a difference between organized labor and rank-and-file labor, one wonders if the GOP will ever obtain the blessing of the former. Still, organized labor is far from being dealt clear out of the game. The President would like labor on his side in an active way, not sulking on the sidelines.

The President's guidelines theory is that wages and prices should not advance beyond productivity, pegged by the administration at 3.5 percent per year. Labor has said it will not live with such a guideline because the system maintains no control over profits. This is true to an extent but false from other points of view.

Wages and profits are not the same in relation to productivity. Wages will remain fixed unless specifically changed as a result of bargaining or automatic adjustments. If pegged to a 3.5 percent maximum increase, the wage level can be fully and accurately determined. The same thing is not quite true of profits.

While prices might be fixed at a 3.5 percent maximum increase, profits can range considerably one way or another from that figure. In other words, to determine the price is not automatically to determine profit because profit has to do with cost of production as well as price. An increase in volume, for instance, can produce higher profits while the price of things remains steady. Also, greater efficiency in productivity can increase profits even at a steady volume and price levels. Theoretically, labor would profit from any increase in production efficiency and management, therefore, would come out even. If productivity increased 3.5 percent, wages and prices would advance 3.5 percent and management's profit picture would remain the same.

Willfulness vs A Constitution

There is a curious political phenomenon taking place in Alabama.

Governor George Wallace is barred by the state constitution from seeking re-election. Last fall he convened a special session of the state legislature in order to change the constitution. The legislature met and refused to humor him.

Now the governor's wife has filed for the governorship, saying that if elected she will be no more than a front for her husband. So now it will be up to voters of Alabama to determine whether they will defeat the intent of their own state constitution by a ballot box device.

Gov. Wallace is an arch segregationist and a willful one. He needs the governorship to maintain his political posture. Some

Federal Traffic Control?

It is more than a remote possibility that the federal government will, within a few years, enact regulatory laws in an effort to achieve better traffic safety.

The pressure is mounting for a uniformity in licensing, consistency in highway regulations and inter-state authority over traffic offenders.

Why? The states have always been in charge of traffic and seem unable to control it. One and a half million Americans have now lost their lives through highway accidents. That is a greater number of deaths than the U.S. has suffered in all its wars. The annual death toll has now reached 49,000. By 1975 at the present rate the annual toll will reach 100,000, it is estimated.

More than that there are now 3.5 mil-

Uncle Sam In City Hall

Skepticism was the reaction of one spokesman for the Council of State Governments to a proposal now in Congress for placement of federal representatives in municipalities to coordinate programs of federal and municipal cooperation. The spokesman no doubt has expressed the

Most Elders Are Reasonably Content

By ROBERT PETERSON

Most older people are sitting pretty. They may not have as much money as they'd like. But they've got enough for food, clothing and shelter, and enough left over for an occasional movie and ice cream soda. While they may have an occasional ache or pain, they aren't suffering and they're able to get around on their own.

I'd guess that at least three-fourths of all elders are reasonably content, and don't waste time feeling sorry for themselves.

But there are some pro-

fessional pessimists around who insist on stirring up dissatisfaction. They would have us believe that our aged citizenry is badly neglected and that most elders live tragic, unhappy lives in the shackles of abject poverty.

Following a meeting the other day I walked down the street with one of the speakers. This chap had just given a talk on the dolorous, deceptive theme that here in the richest nation on earth old folks have barely enough to eat, etc.

Suddenly he stopped and gestured. There in front of

us on New York's Fifth Avenue was an obese, elderly woman scratching through a refuse basket. Her scraggly, yellow-white hair was matted, and she was wearing tattered tennis shoes, green anklets and a shabby, man's overcoat tied around the middle with a piece of twine.

"There's your old age in America," he said triumphantly.

It seemed obvious to me that this sorry-looking specimen of femininity was unbalanced and harbored some strange aberration. But this chap was unconvinced and when we parted at the corner he said, "Take off your rose-colored glasses and you'll see how shabbily society treats its aged."

Well, I don't need any rose-colored glasses to note the proliferation of organizations serving elder citizens. Nearly every hamlet across the country has clubs and social programs for elders. And larger cities have free day centers where folks past 60 can meet for recreation and instruction in arts, crafts and creative pursuits.

Hundreds of developers in mild climates are providing splendid, low-cost housing for retired folks. And Uncle Sam's cornucopia of Social Security goodies is the most generous bonanza ever offered older people.

First, consider Medicare. Starting next July it gives all folks past 65 up to 60 days of free hospital care, plus the opportunity of buying for \$3 monthly an insurance policy to cover doctors' bills and related medical costs.

Second, consider Old Age Insurance. A person who has had maximum Social Security taxes deducted from his paycheck ever since the system began in 1937 has contributed less

Inconspicuous, without leg straps, elastic belts, body encircling springs or harsh pads, it has caused me to say, "I don't see how it holds so easy. I would, if I believed, had I not tried it."

So comfortable — so easy to wear — it could show you the way to joyous freedom from your rupture trouble.

You can't lose by trying. It is sent to you on 30 days trial. You receive a separate \$4.95 truss as a gift just for trying the invention.

Write for descriptive circular. It's free. Just address Physicians Appliance Company, 6622 Koch Bldg., 515 W. 75th St., Kansas City, Mo. 64114.

But do it today before you lose the address.

Everybody in the neighborhood got the flu. And there's been nothing but telephoned comparison of symptoms.

Through my bedroom door I can hear some pretty good stuff.

"...head felt like a balloon but it seems better today. I'm so glad you are too. What? Oh, him. He's still in bed. He says he has a little fever."

A little fever? What treachery is this? A LITTLE fever!

★ ★ ★

"And how do you feel this morning?" she asked. "Better," I said. And that was the first mistake of the day.

If you admit to a fracture of well-being, they bring in the humming vacuum cleaner and start running it around and under the bed.

"Let's open the windows and let it air out in here," they say in that hearty, healthy way. "It will make you feel better."

They slam open the windows—crash!

And the cold, cold air comes blowing in.

I said: "For heaven's sake, take that blasted machine out of here! And close the windows before I freeze. I'm a sick man."

She said: "I can't hear you with the machine running.

\$14.3-Million Storm Sewer Plan Studied

The City Council is taking under consideration a 20-year, \$14.3-million storm sewer program recommended by the city public works department.

The program, which envisions 193 separate storm sewer projects in all sections of the city, was contained in a comprehensive drainage report presented to the council by acting Robert Obering, director of public works.

"The department is aware, due to many complaints over the years and due to its experience with our drainage system, that many areas of Lincoln are experiencing this problem of local flooding," Obering said in making the report.

Becoming Serious
He was prompted to ask the council to budget money for the report, he said, because the drainage problem is becoming serious.

Financing of the program, which would begin in 1967 and continue until 1986, could consist of a \$5 million general obligation bond issue, which would be used to help pay off outstanding sewer bonds, with the remainder of the program being financed on a pay-as-you-go basis.

An alternative total pay-as-you-go financing system was also suggested.

The bond issue method would require the ultimate expenditure of \$20,341,000 in tax dollars, for the capital improvements involved and for bond retirement. The total pay-as-you-go system would require \$18,301,000 in tax money over 20 years.

Hopeful
Although storm sewer projects will not be assessed against property owners, city officials said they are hopeful that under new federal legislation, matching funds will be available to help pay the costs of at least two major storm sewer projects per year.

Council members forecast a raise in the mill levy if the program is accepted.

Following are the top 20 storm sewer projects on the report priority list, location and estimated cost:

Project	Description	Estimated Cost
1-B & 2-B	Lehigh to 34 & Starr	\$820,000
2-BH & Starr	26th & Vine	473,000
2-BH & 2-B	26th & 27th	356,000

Bottle Club License Okayed At Beatrice Bowling Alley

Southeast Nebraska Bureau

Beatrice — A request for a bottle club license in conjunction with a local bowling alley stirred considerable debate before winning 4-2 approval of the City Council.

Henry's Bowl requested the license, which would be limited to one room adjacent to the bowling area and operated by the Beatrice Bowling Non-Profit Association. The bowling alley itself had been unsuccessful in two previous attempts to obtain a beer license.

Opponent Millard Henderson contended the situation is

Institutes On English-Arts Under Study

Elementary English language-arts institutes are being considered in a four-day meeting ending Tuesday at the Nebraska Center, partially sponsored by the University of Nebraska.

About 65 persons, including some teachers, are participating in the conference which intends to present its decisions to the public and educational institutions.

Topic of discussion for portions of the language-arts institutes include reading, literature, speech, composition and language.

Participants also were scheduled to hear remarks on the National Defense Education Act institutes by Donald Bigelow.

Institute session leaders are William Iverson, Bruce McLeiburn, Kenneth Brown, Dorothy Saunders, and Robert Allen. Dr. Paul Olson, NU professor of English and codirector of the Nebraska Curriculum Development Center, is heading the conference.

Tax Office Will Oppose House Bill

The State Tax Commissioner's office announced Monday it will oppose a House bill to allow the federal government to set guidelines on property valuations of interstate carriers.

William Peters, attorney for the tax commissioner, said he will appear at the hearings in Washington later this week on the legislation.

He said the proposal would "impose a federal imposition on the State of Nebraska and this we most vigorously oppose."

According to Peters, the bill would also permit the federal government to seek injunctive relief in court if states do not comply with the new guidelines.

"We can take care of our own tax matters without the federal government telling us what to do," he said. "The government has no business telling us what guidelines to use in determining property valuations of carriers taxed in Nebraska."

Peters said the legislation would cover all carriers subject to provisions of the Interstate Commerce Act. This includes railroads, buses, river barges, airplanes and trucks.

He said Rep. Glenn Cunningham, R-Neb., is one of the sponsors of the proposal.

79 Selected For 2-Week Jury Term

Seventy-nine Lancaster County residents reported for the two-week Lancaster District Court jury term which began Monday.

The jurors and their addresses are:

Alford, Mr. Mildred E., 2110 Park Street, Mrs. Janice J., 3000 Neumann, Mrs. Miss Harriet, 900 So. 14.

Baldwin, Mr. 2612 1/2 So. 1, Thomas.

Baldwin, John, 200 New Hampshire.

Baldwin, Kenneth D., 102 So. 35.

Campbell, Mrs. Alice F., 2645 Woodcrest.

Carter, Mrs. Jessie N., 206 No. Carter.

Cox, Mrs. Margaret, 206 Redford.

Cox, Mrs. Christine F., 1935 E.

Cross, Mrs. Ida I., 1700 So. 27.

Curran, Charles J., 1144 Furnas.

Dickinson, E., 2612 1/2 So. 15.

Fleming, Robert F., 310 Leighton.

Fox, Mrs. Gertrude, 873 No. 26.

Gilligan, Mrs. 2681 South.

Gisler, Raymond J., 3645 No. 66.

Good, Miss Pauline June, 228 So. 17.

Hardy, Mrs. 200 So. 12.

Hirschbarger, Harold L., 3761 So. 23.

Keeler, Mrs. 2681 South.

Keeler, Mrs. 2681

Programs Planned

The regular meeting of Chapter Al, PEO, will be held Tuesday evening at the home of Mrs. Virgiline Cronkite, 5701 Randolph.

Assisting Mrs. Cronkite as hostesses will be Mrs. C. W. Shipman, Miss Clara Johnson and Mrs. Ruth Doyle.

A review of the book, "China," by Harry Schwartz will highlight the program of the Bookmark Club, Thursday evening, at the home of Miss Hazel Scott.

The review will be given by Mrs. Edna Trowbridge.

TALK of the town

A day or so ago we mentioned that this might be homecoming week for some of the winter vacationists—And it seems to be. But there are others who will not be moving into home port until next week—and a few who have chosen early April for their return home...

But before we open the books on the homecomers we have a bit of party news to mention—and an interesting flash from the nursery set in Philadelphia.

The party was a luncheon for which Mrs. Hugh Birmingham of O'Neill was hostess on Monday at the University Club. Mrs. Birmingham's guest list of eight included a group of her Lincoln friends, and her cousin, Miss Elizabeth Latta of Omaha...

From Philadelphia has come the word that Kevin Cullen Serr arrived on Friday, Feb. 25. Young Kevin is the son of Mr. and Mrs. Cullen Serr, and his mother is the former Mary Lou Calhoun of Lincoln, daughter of Mrs. O. V. Calhoun...

For the traveler who has been everywhere, we recommend Mrs. Donald Miller's very recent cruise.

Mrs. Miller flew from Lincoln to Buenos Aires, Argentina, where, with 50 other cruise passengers, she boarded an Argentine Navy Transport for a month's cruise of the Antarctic. We might add that this was the first time an Argentine Navy transport had been turned into a cruise ship—and whether the experience will be repeated is anyone's guess. But the transport had its full complement of Navy men—150, to be specific. There also was an escort ship, and an ice breaker. But the cruise, according to Mrs. Miller, was delightful—No one had to leave the ship, unless there was an overwhelming desire to do some climbing, because the ship went right to the scenery which, says Mrs. Miller, really is beautiful. There were icebergs, of course—all shapes and sizes—There were penguins, seals, whales and a variety of birds—plus numerous other interesting sights that were more than a little unusual as far as the cruise passengers were concerned...

A locale closer to home was chosen by Mr. and Mrs. E. Shelden Hallett for their month's holiday. Mr. and Mrs. Hallett returned on Saturday from Scottsdale, Ariz., where they spent most of their time—En route home, however, the travelers spent a few days in Las Vegas.

High-intensity lighting that reflects your good taste. \$14.95

Lampette . . . the little giant

Brilliant is the word for the new Lampette Model E-4, and for the glareless high intensity light it throws on reading, writing and close work of all types. This lampette model is a compliment to any decor. Lampette's telescopic arm extends from 7" to 18" and its ventilated shade swivels a full 360° to put light wherever you need it. Lampette's tiny 1141 bulb gives off light equivalent to a 100 watt bulb. Choose from turquoise, white, black and sand.

Lamps & Pictures, Downtown and Gateway

NEWS of the suburban areas

To all Doubting Thomases who are convinced that Nebraska's winter cold is here to stay, we have proof that spring will be upon us before you can say, "Easter Bonnet."

The signs of spring are infallible—and we don't mean robins and blue jays in the back yard or that slight hint of green in the soggy turf. The exodus of the young in heart to the nearest golfing green is one definite omen—another is the sight of loyal mothers of teen-age girls huddled over sewing machines (the Paris fashion

CHOOSE church ceremony

Arrangements of carnations in yellow and white appointed the altar of the First Trinity Lutheran Church near Beatrice on Sunday evening, Feb. 27, for the wedding of Miss Kathleen Kay Aughe, daughter of Mr. and Mrs. C. J. Aughe of Lincoln, and Ronald G. Buss, son of Mr. and Mrs. Alvin Buss of Beatrice. The ceremony was solemnized by the Rev. Wayne Meier, and Miss Carol Wollenburg, organist, played the wedding music and accompanied Miss Alicia Andrews, vocalist.

Wearing slim-skirted frocks of emerald green velvet were Miss Gloria Walker of Beatrice, the honor attendant; Mrs. Gerald Merritt, Lincoln, who was her sister's bridesmaid; and the bridesmaid, Miss Carol Buss, Lincoln, sister of the bridegroom. Each carried a single yellow rose.

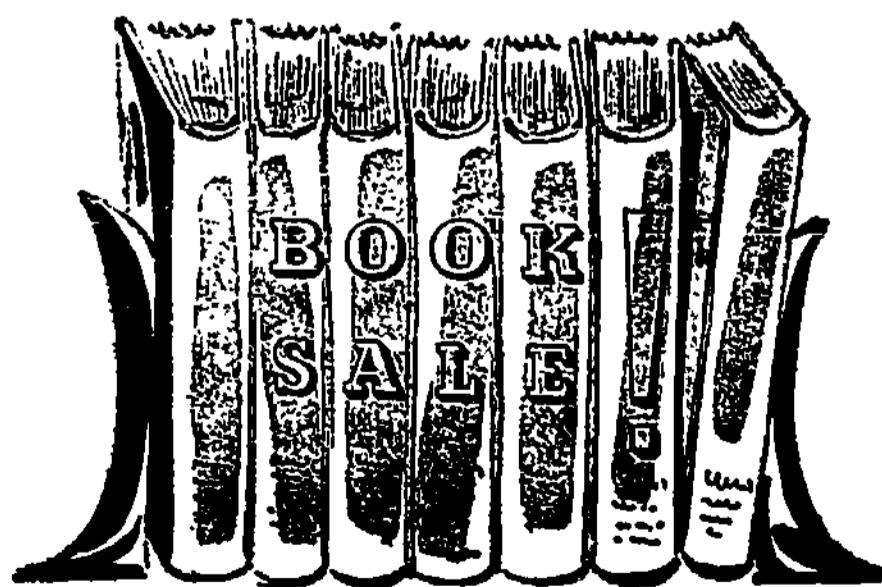

Larry Zimmerman of Jansen served as best man, and the ushers were Garold Zimmerman, LeRoy Zimmerman, James Johnson and Carl Wollenburg, all of Beatrice.

The bride selected traditional white satin for her wedding gown. Appliques of lace patterned the long-sleeved basque and fitted midriff, and was repeated in a wide banding above the hem of the full skirt, which brushed the floor at the back. A pearl crown held her tiered veil of illusion, and she carried a white Bible ornamented with white and yellow roses.

The couple will reside in Beatrice. A former student at Fairbury Junior College, the bride is a member of Phi Theta Kappa and Delta Psi Omega honoraries.

shows have nothing on Lincoln's suburban young set).

But spring or not—suburbia is filled, as usual, with news of the residents' comings and goings, of birthdays, trips and visitors.

KIMBERLY HEIGHTS

Speaking of visitors reminds us of a foursome of guests in the neighborhood who arrived last Saturday from their home in Little Rock, Ark. The visitors are Capt. and Mrs. Robert Hanson and their children, Linda and Mike, who are the house-guests of Mrs. Hanson's parents, Mr. and Mrs. Harold Ziegler.

Mrs. Hanson, of course, will be remembered as the former Dorothy Ziegler.

Capt. and Mrs. Hanson and their children will leave Wednesday to return to Arkansas, where Capt. Hanson is stationed at Little Rock Air Force Base.

Not current travels but very recent ones were the subject of conversation last Sunday evening when Mr. and Mrs. Edwin Busboom and Mr. and Mrs. W. F. Damkroger gathered at the Damkroger home for an informal supper and to compare color films on their trip to Hawaii.

Although the trip by plane to the 50th state was a highlight of the past year, this is the first opportunity for the foursome to see who was the best photographer.

The lights were on at the home of Mr. and Mrs. Jim Burk last Saturday evening and the occasion was the gathering of a neighborhood pinochle club. No scores, however, have been revealed to the public.

Current news in the suburb also includes a bit of celebrating which centered at the home of Mr. and Mrs. James Millstead last Wednesday, Feb. 23. That was a Red Letter Day in the life of young Mike Millstead who celebrated his sixth birthday anniversary.

Mike's luncheon guests were Tommy Marks and Clayton Boyd, and helping the birthday honoree celebrate Wednesday evening were members of the family who included Mike's sister, Linda, and his grandparents, Mr. and Mrs. J. M. Millstead and Mr. and Mrs. Joe F. Brown, who were dinner guests of Mr. and Mrs. Millstead.

LWC To Hear Youth Authority

Celebrating the Diamond Jubilee of the General Federation of Women's Clubs, the members of the Lincoln Woman's Club will entertain at luncheon, Thursday at 12:30 o'clock, at the Club House, with club president, Mrs. George Mechling, as official hostess.

Highlights of club and federation achievements through the years will be presented in a program to feature an address by Ben Goble, insurance executive vice president and authority on juvenile delinquency.

In keeping with the club's emphasis on youth activities, Mr. Goble will speak on the topic, "Our Youth Today", and will discuss the new community crime prevention program, Project Pal, of which he serves as chairman.

Explaining his interest in teen-agers who get into trouble, Mr. Goble, whose father served as Gage County sheriff, says he "grew up in jail". His interest in

young people continued during the years he was a faculty member and coach in the Grand Island school system.

A member of Congressman Clair Callan's Committee of Human Resources, Mr. Goble

maintains a volunteer status in the field of juvenile delinquency, but his activities have been endorsed by the FBI's J. Edgar Hoover and other government officials in Washington with whom he met last October.

Incidentally, the Lincoln Woman's Club, which has been associated with the 11-million-member general Federation of Women's Clubs for 71 years, at one time was the largest single club within the federation.

BRIDE

at evening service

At an evening ceremony solemnized Friday, Feb. 18, in the United Church of Christ in Atwater, Calif., Miss Irene Reynolds, daughter of Mrs. Wayne Reynolds of Atwater, became the bride of Frederick Paul Ferris, son of Mr. and Mrs. Walton C. Ferris.

The attendants, were Miss Susan Reynolds, as her sister's maid of honor, and the bridesmaids, Mrs. Stephen L. Peterson, San Jose, and Miss Sandra Petersen, San Francisco.

Walton C. Ferris, Jr., of Palo Alto, served his brother as best man.

The bride's gown was fashioned of white lace and organza over taffeta. A sabrina neckline accented the long-sleeved bodice of lace.

Mr. and Mrs. Ferris will make their home in San Francisco, at 673 47th Ave. The bride is a graduate of Heald's Business College, San Francisco, and Mr. Ferris received his degree from Heald's College of Engineering, San Francisco.

ABBY

pull out of the arrangement

ABIGAIL VAN BUREN

DEAR ABBY: My husband and I have a joint checking account, but with both of us writing checks it never comes out right. He writes checks without telling me about them, and I never know if we have \$1,000 in the bank or if we're overdrawn. It is very nerve-racking. We've been fouled up so bad at the bank that we've closed our account and started all over at another bank. We will run out of banks pretty soon. Is there a solution?

UNBALANCED
DEAR UNBALANCED: You'll never cure a signa-

ture-happy husband. Your only hope is to pull out of the joint arrangement and let him sink or swim in his own ink. Once he sees what he has wrought by what he's written, he'll either shape up or turn in his fountain pen.

DEAR ABBY: When I became engaged last month, a friend asked me if she could give a luncheon in my honor. I was delighted and told her she could. After a few weeks had passed she called to tell me that the luncheon party did not "work out," but she had a better idea. She wanted to give a dinner

party honoring my fiance and me. We set a date, and again I was delighted. Then she called to tell me that that date was "inconvenient," and would it be all right if she "included" my fiance and me at a later date at a cocktail supper for a large crowd. I would have been happy to accept the final invitation had she given it first without all the canceling, shifting, and changing. I now feel that she is trying to fulfill an obligation rather than to "honor" me. Would you accept this last invitation?

DISAPPOINTED

DEAR DISAPPOINTED: Not! And I hope I never get that hungry.

CONFIDENTIAL TO "WEAK" IN PUEBLO: We are all "weak" in some degree. The best way to escape the consequences of temptation is to avoid it.

Opening lead — king of diamonds.

A defender sees only his own hand and dummy's, but he should be busy at all times trying to construct and reconstruct declarer's hand so that he can deal with it in the most efficacious manner. It is a basic rule of defense that you don't credit declarer with a hand which permits him to make the contract.

On the contrary, what you do is try to imagine some hand he may have which would allow you to defeat the contract. The imaginary hand will sometimes be far-fetched, but it is generally better to think in a positive manner that permits defeat of the contract than in a negative manner that amounts to conceding the contract.

Here is a typical case. Let's say you have the West hand and are defending against four spades. You lead the king of diamonds followed by the queen, East and South both following suit.

In view of dummy's im-

pressive hearts and clubs, you now know you cannot defeat the contract unless your side can take two trump tricks. All your thinking at this point is therefore devoted to imagining hands that South can hold—particularly his trump holding—which would permit the contract to be defeated.

Instead of thinking directly in terms of South's possible trump holdings, it is somewhat easier to think of East's possible trump holdings. Some of these can lead to defeat of the contract provided you and your partner get the greatest possible mileage out of the trumps that you have.

The proper play at trick three is a low diamond. This play will be effective if East ruffs high with any of these holdings in trumps: Q-x, J-x, singleton queen, or singleton jack. In all these cases you would make two trump tricks with the A-10, instead of one. When your partner's ruff promotes your ten into an extra trump trick.

On the contrary, what you do is try to imagine some hand he may have which would allow you to defeat the contract. The imaginary hand will sometimes be far-fetched, but it is generally better to think in a positive manner that permits defeat of the contract than in a negative manner that amounts to conceding the contract.

Here is a typical case. Let's say you have the West hand and are defending against four spades. You lead the king of diamonds followed by the queen, East and South both following suit.

FURS UNCLAIMED
FROM STORAGE
BEING SOLD

Unheard of Prices on
New and Used Furs
Here is the story of these furs: Furriers from time to time, get "stuck" with furs unclaimed from storage. Pachman Furs has a large group of furs consigned by a large furrier which will go at fantastic prices in the Lincoln area. Also many NEW one-of-a-kind furs from regular stock will go at very low prices. Imagine buying a nearly new fur stole for only \$15.00 and up and fur collars from \$5.00 to \$10.00. Many of these furs are expensive furs and are being sold at ridiculous prices. These furs really look NEW but must be labeled "second-hand used." If you want to buy a "good" \$15.00 and up bargain in a fur you'd better come early. Fur products labeled to show country of origin of imported furs. Fur Coats, Jackets, Scarfs and Stoles will go at low, low prices. A deposit will hold your layaway. Furs on sale for limited time, open from 9 A.M. to 5 P.M. Pachman Furs, 1026 "O", Phone 432-1912. Layaways invited.

No Plans For Thriller

Dave Crook is not a drama major at Nebraska nor has he any plans for writing a Captain Midnight or Batman serial, but the Husker runner appeared to be rehearsing a track spine-tingler in the Big Eight Indoor Track Championships Friday and Saturday night at Kansas City, Mo.

Anyone who got up to go to the popcorn stand Saturday night during the running of the 600 could be excused. You couldn't accuse the fan of being uninterested. It simply could have been that he thought he was watching a videotape replay of Friday night's race.

The only difference between the Friday night preliminary race and the Saturday night final was that the latter was nearly one and one-half seconds faster, making the third fastest 600 ever run anywhere.

Wanted To Alter Script

But for the benefit of those who had seen the preliminaries, Crook wanted to alter the script. As a matter of fact, so did Iowa State's Steve Carson. Crook didn't want to give Husker fans cause for heart failure and Carson wanted to change the script by winning.

The problem was that there was no director to co-ordinate their alterations. So the race looked like a re-run. In both races, Carson set the pace with Crook running second until they hit the tape.

"I didn't want to do it that way," Crook replied when queried on the risk he took in not overtaking Carson until they hit the tape in the 600 finals. "I planned it that way Friday night, but not in the finals."

Had it not been for Carson's brisk pace, Crook likely would not have put his name directly behind Martin McGrady or Central Ohio State and Allan Cassell of Houston as the world's premier 600 runners.

"It (the final race) looked just like Friday night's," Crook admitted. "But it wasn't planned that way. Carson just pushed so hard tonight that I couldn't overtake him until the end."

"I wanted to take the lead earlier. I tried as we came out of the first curve on the final lap, but I couldn't get around him."

Third And Fourth Fastest

When Crook finally did get around Carson, the clock read 1:09.2, the third fastest 600 ever run. McGrady ran a 1:09.0 and Cassell a 1:09.1 in the same race this year. Carson's second place time of 1:09.3 goes down as the fourth fastest ever run.

Crook had no idea he had come that close to the world's record, but he knew the race was fast. "I knew we were going fast," he points out. "I could tell that by the rhythm and the tempo."

The Husker runner doesn't like to be a pace setter, but he doesn't like to run second at the finish either.

"I would rather let someone else run out front for the first 440," he explains. "But I like to take over after that. I don't like to take chances on not winning."

But, what about the chance he took Friday night in waiting until the end to nip Carson? "I thought I could get him at the end," he points out. "I just want to run fast enough to win in the preliminaries because they don't mean anything, but I don't want to finish second in any race."

The difference between Crook's winning and finishing second was less than a stride Friday and Saturday night. But it wasn't by plan.

—NU 9TH IN AP, DUKE SLIPS—

Kentucky Stretches Lead In Cage Poll

By Associated Press

The Kentucky Wildcats, needing only two more victories to complete an unbeaten regular season, have strengthened their lead in the Associated Press college basketball poll. Texas Western, also undefeated, replaced Duke in second place.

The Wildcats, 23-0, collected 38 first-place votes and 296 points in the voting by 40 regional experts based on games through last Saturday. Kentucky, which defeated Mississippi and Tennessee last week, faces Tennessee again this Saturday and Tuesday in its final game on March 7.

Texas Western has 330 points on a basis of 10 for a first, nine for second, etc. The Miners advanced one notch after defeating West Texas and Colorado State for a 22-0 mark.

Duke, which trailed Kentucky by 48 points a week ago, slumped to third. The Blue Devils lost for the third time this season, 99-98 to Wake Forest in overtime.

There were no changes in the next four positions as Chicago Loyola held fourth, followed by Vanderbilt, Kansas and St. Joseph's of Pennsylvania. The four were unbeaten in last week.

Providence switched places with Nebraska, the Friars climbing to eighth and the Cornhuskers slipping to ninth after losing to Kansas, 110-73. Providence lifted its record to 21-3 with victories over New Orleans Loyola and Holy Cross.

Tuesday, March 1, 1966 The Lincoln Star 11 Nebraska Tries To Gain Share Of Big 8 Lead

. . . HUSKERS MEET THIRD-PLACE KANSAS STATE AT NU COLISEUM TONIGHT

By BARRY BURKHART

Star Sports Writer

Trailing Big Eight leader Kansas by one-half "one via a 110-73 thumping at the hands of the Jayhawks Saturday night, Nebraska's basketball team will try to gain a share of the lead tonight when the Huskers meet Kansas State in the NU Coliseum at 7:30.

Going into last Saturday's contest, Nebraska led the conference with a 10-0 record. Kansas' win, however, vaulted the Jayhawks into a half-game conference lead by virtue of their 11-1 record. Kansas is idle until Saturday night.

K-State, in third place with an 8-3 record, lost to Nebraska, 82-71, earlier in the season at Manhattan. And according to Nebraska coach Joe Cipriano, the Huskers

played one of their finest first halves of the season that night as they built up leads of as much as 20 points in the first period.

The Wildcats, however, came back strongly in the second half to tie the score before Nebraska showed great poise in pulling away at the close of the game.

Despite an 80-77 loss to Oklahoma Saturday night, the Wildcats have improved a great deal since their first conference loss to Nebraska. After losing to Kansas at Lawrence in January, Kansas State won six straight conference games before last Saturday's loss.

A great deal of K-State's improvement took place when 6-10 center Roy Smith won back the starting position he held last year from 7-1 Nick Pino.

Although Smith has not added a great

many points, his rebounding and speed (in comparison with Pino) has helped the Wildcats.

And, says Cipriano, "the Wildcats' have gained more confidence because they've won some games on the road."

According to Cipriano, the Wildcats' strongest point is "shooting, but they run and handle the ball pretty well too."

K-State's most dangerous shooter is probably 6-7 sophomore forward Earl Seyfert who has gained momentum since the season began. Seyfert took the game scoring honors against Oklahoma Saturday as he hit 24 points.

Says Cipriano, "they (the Wildcats) have more depth than most teams in the league." Some of this depth lies not only in Pino but also in Jim Hoffman, a 6-6 for-

ward who came off the bench Saturday to score eight points against the Sooners.

Moreover, concluded Cipriano, "They (the Wildcats) have something going for them too . . . If they beat us they have a chance to move into second place."

Cipriano is not too worried about his players being down after their decisive loss. "We've lost before and bounced back," he says. "We should be all the more fired up the way we got beat," he adds.

Nebraska players, according to Cipriano, are all in good physical condition and will be ready to play. The Husker freshmen, 67-55 victims of the K-State frosh in the first encounter between the two teams, will have a return match with the Wildcats in a 5:20 p.m. preliminary game.

PLAINSMEN WIN FINALE

Nasi Sets School Mark As NWU Nips Simpson

. . . LARGE DE WITT TURNOUT TO HONOR TIETJEN

By HAL BROWN
Star Sports Editor

Light-heavyweight Bill Nasi got off the floor from a one-punch knockout in the first 10 seconds to set a Nebraska Wesleyan rebound record as the Plainsmen closed their 1965-66 campaign with a 77-73 win over Simpson College of Iowa.

Nasi, a 6-4, 170-pound junior from Denver, went to the dressing room for repairs after being decked by an elbow at the start of the game and came back to the Wesleyan lineup several minutes later to snare 26 rebounds, tying the school record set in 1963 by Chet Paul.

The Plainsmen closed the season with a 13-9 mark as a sparse crowd turned out for the finale with a large share of the crowd coming to De Witt to honor hometown hero Dwight Tietjen.

Tietjen waited until he had received a plaque from the De Witt boosters at halftime before he made a major contribution to the Plainsmen victory.

The 6-0 senior, playing his last collegiate game, had trouble finding the basket in the first half, scoring only three field goals.

"There must be a lot of wonderful people in De Witt to come up here to see me hit three of 20 in the first half," Tietjen joked after receiving the award at halftime with the Plainsmen leading 40-36.

But in the second half, the

De Witt native found the range and finished the evening with 20 points to top all scorers.

Coach Irv Peterson's Plainsmen started slowly, falling behind by 13-4 in the first five minutes and not gaining the lead until Nasi returned to the contest and hit a field goal and free throw on a three-point play with 8:31 remaining in the first half for a 23-22 Wesleyan advantage.

After falling behind at this point, Simpson never again managed to catch the Plainsmen as the Iowa visitors lost their 18th game in 22 starts.

Wesleyan enjoyed its biggest margin at 72-59 with 8:06 left in the game when a three-point play by Tietjen and a field goal by Dick Hahn gave them that edge.

Simpson closed the gap to four with 1:02 to play when three straight free throws and a field goal by Jerry Berry narrowed the margin to 76-72.

But Simpson coach Lester Deaton then tried to help the

officials with their job and the gendarmes said they could handle that job by themselves and slapped a technical foul on the inquiring coach.

Skip Peterson converted the gift toss and a field goal by Simpson's Tom Schmidt made the final count, 77-74.

The Wesleyan frosh with Kim Busch leading with 23 points defeated Russell Sports in the preliminary game, 87-77. The win closed the NWU frosh season at 17-6. Duane Eichorn, a Wesleyan grad

No. 1 Hebron Nips York; Seward Tips Superior

CLASS B DISTRICT ACTION BEGINS

By JOHN LEE
Outstate Nebraska Bureau

Grand Island—Top-ranked Hebron barely escaped with a 56-51 victory over tenth-ranked York here in Class B first-round action Monday night.

In the second battle, between unrated Seward and Superior, Seward held off two late Wildcat bids to take a 76-70 decision.

York blanked the leading Bears for four minutes in the final period while connecting for 14 points themselves.

But the spurt merely balanced the scoreboard at 51-51 and assured nothing but a roof-raising finish.

Hebron had pulled slowly away from a 29-24 intermission tally, leading 48-35 as the fourth frame began. The Bears matched their largest lead at 51-37 before starting the four-minute frigid spell.

Five Dukes scored during that time with Don Robson's thievery keeping the Bears looking for the ball.

Substitute Sherdal Lewis hit a jumper to tie the knot, 51-51, with 2:15 to go. But that was to be as high as the lights would go on York's side of the board.

Hebron finished at the charity line as John Buller hit three and Loren Peithman and Max Mumford each got one to finish the scoring.

Coach Al Lowe's winners got 14 from Wayne Hennings, with Buller and Tracy Long also in double figures, counting 11 and 10, respectively.

No fewer than nine Dukes got on the scorebook for York mentor Tex Harvey. Dan Hyton and Gene Staehr shared honors with 10 apiece.

After trailing from early in the first period, Superior charged back in both the third and fourth frames before dropping back to end a 4-15 season.

"If we'd let them get ahead, it would have been a different situation," said Seward coach

Garland Women Whip Omaha All-Stars, 78-11

Omaha — Garland easily defeated the Omaha All-Stars, 78-11, in a Midwestern AAU Women's Basketball Tournament game at Bishop Rummel High School here Monday night.

Dizzy Dean Fired By TV Sponsor

Wiggins, Miss. (Mo.) — Colorful Dizzy Dean, apparently frozen out of baseball broadcasting, said Monday night he's not going to do the Game of the Week coverage this season and he's quite unhappy about it.

Dean said the advertising agency for Falstaff Brewing Co., one of the sponsors of the baseball telecasts, "asked for me to retire."

Dean, commenting on an interview earlier in the day with WJTV television station at Jackson, said that he had "vigorously refused."

Contacted at his home in Wiggins, Dean said, "I want it clear that it wasn't NBC that asked me to retire, but it was the agency. I've been trying to get hold of NBC since Saturday, but I can't locate anybody to talk to me, and they won't return my calls."

The Nebraskans, both members of Company D of the 67th Support Battalion, will participate with the national team in the Dixie Pistol Shooting Match in Jacksonville, Fla., on March 5-6 and in the Inter-Service match at San Antonio, Tex., in early April.

They also will enter the regional and national pistol matches.

Jack Fisher, Mets Finally Get Together

St. Petersburg, Fla. (Mo.) — Pitcher Jack Fisher, a 24-game loser last season and a stubborn holdout, came to terms Monday with the New York Mets.

The right-hander signed for an estimated \$22,000 — about \$3,500 more than he was paid last year when he had an 8-24 record with the National League's last-place team. He had asked \$25,000.

Massachusetts Cage Coach Orr Resigns

Amherst, Mass. (Mo.) — Johnny Orr resigned Monday as basketball coach at the University of Massachusetts.

Orr will leave April 16 to take a job in the insurance business in Illinois.

Rod Felix. "This is the first time we've had any trouble with a press."

Working with mechanical efficiency, Seward had shot to 19-point leads twice in the second period after a 23-tally production in the opening frame.

But they were completely shackled in the third by the tight press, watching Superior's Doug Anderson and Larry Irvin lead a challenge that finally ended with Seward ahead by a mere two, 51-49.

The Jays again pulled ahead by 12 and let the Wildcats get

within only a six-point arm-length in their late bid.

Heid to nine in the first half, Anderson ended with 21 for the Cats.

Wes Walden and 5-9 Dave Skolnik both topped the Superior ace however. Each hit eight field goals, but Walden put in one more free throw to top his mate, 23-22.

Seward will take on Hebron in Wednesday's semi-final action.

Hebron 12 17 19 8-56
Hebron-Henning 14, Buller 11, Long 10, Peterson 9, Mumford 7, McLauren 10, Hylton 10, Staeh 10, Hockins 9, Robson 7, Hurnett 4, Johnston 4, Lewis 4, Whitmer 2, Steeve 1.

Seward 12 17 22 18-57
Seward-Walden 23, Skolnik 22, Kroon 10, Becker 10, Rikert 7, Hoebe 7, Superior-Anderson 21, Skinner 14, Irvin 11, Hard 14, Stensel 7.

Cowboys Hit Mizzou, 68-51

Columbia, Mo. (Mo.) — Oklahoma State handily defeated Missouri 68-51 Monday night to stay out of the Big Eight Conference basketball cellar. The Cowboys shot a blistering 62% from the field, Missouri, a cold 25%.

The victory gives OSU a 2-10 mark in the conference and 4-19 for the season. Missouri's 1-12 and 32%.

Oklahoma State had a 10-point lead midway of the first half and kept that margin the rest of the way. The half-time score was 34-24.

With 7:30 left, the Cowboys started holding the ball for sure shots.

OSU sank 23 of 37 field shots, Missouri only 14 of 56. The teams were even-up on rebounds, 37-37.

For Oklahoma State, Jim Teamster got 18 points, Keith Branch 13 and Chad Brown 12. For Missouri, Charlie Rudd hit 18, Ron Coleman 15 and Rich Milling 12.

Branch was the top rebounder with 10. Rudd took nine.

Ghana's Military Leader Warns All To Keep Out

Accra, Ghana (UPI) — Ghana's military leader Monday warned "all nations to keep out of our problems and leave us alone to do our best to solve them."

Lt. Gen. J. A. Ankrah, in his first radio address to the nation, appeared to be aiming at other African states he added:

Ousted Nkrumah Met By Gromyko In Russia

Moscow (UPI) — Kwame Nkrumah, deposed president of Ghana, arrived in Moscow Tuesday from Peking and was met by Soviet Foreign Minister Andrei A. Gromyko.

There was no immediate indication how long Nkrumah would remain in Moscow.

Newsmen were barred from the airport when he arrived in a special Soviet plane.

Gromyko drove to the airport earlier. He spent about half an hour there with Nkrumah after the plane landed and then they motored away.

Ghana's embassy was not represented at the airport.

Ambassador J. B. Elliott said earlier the Soviet government had not informed him of Nkrumah's arrival.

Reports from Cairo said Nkrumah would have talks here with Soviet officials before going to Cairo, where his Egyptian-born wife and three children have taken refuge.

Ambassador Elliott said the embassy supports the government of Ghana rather than one person.

Informed sources said the Soviet government was told through diplomatic channels

that have expressed support for ousted President Kwame Nkrumah, whom he called a tyrant.

Earlier, at a news conference, Ankrah declared that if Nkrumah returned as he has vowed he will face trial. But he added:

"We don't intend to shed blood. If he comes back here we will only try him for the actual things he has done."

In his radio address, Ankrah said his government would "abstain absolutely from interfering in the internal affairs of other states."

"As you all know," he continued, "mere lip service was paid to this policy of non-alignment by the now deposed tyrant and dictator."

"In the days of harboring and training political refugees to subvert other states are over. The (ruling National Liberation) Council already has given instructions that all known political refugees from independent African states will only be allowed to remain in Ghana if they abide very strictly by the Organization of African Unity resolutions on political refugees."

"The council has further ordered that all other subversive elements from independent African states should leave Ghana forthwith."

The government threw open to foreign newsmen an African "freedom fighters" training camp it said was financed by Nkrumah with Communist Chinese as instructors.

The camp was said to have trained 133 Africans for sabotage in South Africa Rhodesia and other African countries. Reporters visiting the camp 130 miles north of Accra found a handful of trainees plus a dozen instructors, most of them Ghanaian soldiers.

"About 13 Chinese came here to train Africans," said the camp commandant, Sgt. Maj. Fusimi Bazabari, of the Ghanaian army.

The instructors said they were paid by the Bureau of African Affairs, run personally by Nkrumah.

Nebraska Marine Dies In Viet Nam

Washington (UPI) — The Department of Defense Monday announced that Marine Pfc. Daniel R. James, son of Mrs. Ruby C. H. James of Loup City, Neb., was killed in action in Viet Nam. The announcement gave no details of his death.

Reports from Cairo said Nkrumah would have talks here with Soviet officials before going to Cairo, where his Egyptian-born wife and three children have taken refuge.

Ambassador J. B. Elliott said earlier the Soviet government had not informed him of Nkrumah's arrival.

Reports from Cairo said Nkrumah would have talks here with Soviet officials before going to Cairo, where his Egyptian-born wife and three children have taken refuge.

Ambassador Elliott said the embassy supports the government of Ghana rather than one person.

Informed sources said the Soviet government was told through diplomatic channels

that the new Ghanaian government wants to have friendly relations with Moscow and seeks diplomatic recognition. Similar messages apparently went to other capitals.

Twelve junior officers who had been with Nkrumah in China arrived here on a regular flight ahead of Nkrumah's special plane and were stuck at the airport trying to get to Accra. The Ghanaian embassy said it had asked Accra what to do about them.

The Soviet government had not taken a public stand on the ouster of Nkrumah from power in Ghana, but the press here suggested it was a Western plot.

The camp was said to have trained 133 Africans for sabotage in South Africa Rhodesia and other African countries. Reporters visiting the camp 130 miles north of Accra found a handful of trainees plus a dozen instructors, most of them Ghanaian soldiers.

"About 13 Chinese came here to train Africans," said the camp commandant, Sgt. Maj. Fusimi Bazabari, of the Ghanaian army.

The instructors said they were paid by the Bureau of African Affairs, run personally by Nkrumah.

Meany Calls Any Federal Contract Withholding Punitive

The major factor in the big labor federation's quarrel with the White House is the Johnson administration's effort to hold wage increases to 3.2% a year.

On President Johnson's proposal for new federal measures to deal with strikes that "threaten irreparable harm

to the national interest," Meany said:

"I think it would be stupid if the administration is thinking about a federal law covering state and local public employees. Meany added that he did not know just what Johnson had in mind.

Meany said any antistrike

law covering state, city and county public employees would be unconstitutional.

"Surely, the Congress couldn't pass on the merits of wage negotiations for city or county employees," he said.

Commenting on Wirtz' statement Sunday that the government will press harder to enforce the wage-price guidelines, Meany said:

"They (guidelines) just can't apply to the entire economy . . . with its thousands and thousands of different types of employment."

Asked about reports that the AFL-CIO was ready to compromise its dispute with the White House over the amount of a minimum wage increase, Meany said, "It hasn't been proposed."

He said the AFL-CIO still wants the present \$1.25 federal minimum wage hiked to \$1.40 this year, \$1.60 next year and \$1.75 in 1968.

Meany said he will seek re-election, but Nelson, a veteran lawmaker, said he will forego a re-election bid.

Lincoln attorney Roland Luedtke, 42, a former deputy secretary of state, filed for the 28th District seat now held by Sen. Hal W. Bauer of Lincoln, who intends to seek a University of Nebraska Board of Regents post.

Sen. William Hasebroock of West Point filed for a fourth term in the Legislature, from the new 18th District.

Henry L. Hads of Elgin filed for the 40th District seat.

Under reapportionment, Sens. William Wylie of Elgin and Frank Nelson of O'Neill were thrown together into a new 40th District.

The department said the law merely provides for the distribution of funds to politi-

cal subdivisions, and authority to actually build recreation developments would have to come from other legislation.

The opinion was written for State Game Commission Director Mel Steen.

"It is a punitive proposal."

Probe Of Death At State Hospital Asked By Morris

Omaha (UPI) — Dr. Willis Wright, president of the Nebraska State Medical Association, has revealed State Institutions Director George Morris has asked the association to probe the circumstances of the Feb. 14 death of a patient at the Lincoln State Hospital.

Dr. Wright, who said the study would be made by the association's policy committee, said its report would go to Gov. Frank Morrison and Morris.

Past presidents, the current president and the president-elect of the association comprise the policy committee.

HEARING SET ON BUS ROUTE

The State Railway Commission announced Monday it has set a public hearing for March 21 in Lincoln on the application of United Motorways, Inc., of Grand Island, to change the route of its Grand Island-Arcadia bus.

Under the revised schedule, the bus would leave Grand Island at 5:10 a.m., and travel through St. Paul, Dannebrog, Boelus, Rockville and Loup City and return to Grand Island at 2:30 p.m. by way of Rockville, Boelus, Dannebrog and St. Paul.

The afternoon schedule calls for the bus to leave Grand Island at 2:30 p.m. and travel through St. Paul, Dannebrog, Boelus, Rockville and Loup City and return to Grand Island by way of Ashton, Farwell, St. Paul and St. Libery.

Dr. Hardin Attending Venezuela Conference

Dr. Clifford M. Hardin, chancellor of the University of Nebraska, is attending the eighth annual conference of the Council on Higher Education in the American Republics (CHEAR), in Caracas, Venezuela. Hardin is one of eight members of CHEAR's executive committee.

The State Justice Department said Monday state and county historical societies cannot receive funds under a federal program designed to promote development of outdoor recreation facilities.

The department said the 1965 law enabling Nebraska to participate in the federal program authorized the State Game Commission and political subdivisions to receive funds.

Historical societies cannot qualify as political subdivisions, the department declared, because they appear to be private organizations rather than political or governmental bodies.

It also noted that not all political subdivisions would be entitled to operate under the federal program, which was authorized by the 1964 Land and Water Conservation Fund Act.

The department said the law merely provides for the distribution of funds to politi-

cal subdivisions, and authority to actually build recreation developments would have to come from other legislation.

The opinion was written for State Game Commission Director Mel Steen.

"It is a punitive proposal."

STORY AT LEFT

TOPPLED STATUE . . . of toppled Nkrumah lost its head in Accra.

Melee Pits Black-Shirted Students Vs. Yellow-Shirted

Singapore (UPI) — Police firing machine guns in the air broke up a melee Monday between pro-and anti-communist students in Jakarta, reliable sources in Singapore reported.

The black-shirted pro-communist students went from a rally presided over by President Sukarno to try to break up a demonstration at the University of Indonesia by

KAMI, the yellow-shirted anti-communist student group banned by the president last Friday.

Jakarta Radio said the president told the students at Bung Karno (Sukarno) Stadium that Indonesia "will soon return to its original leftist track." He warned his opponents would be crushed.

Sukarno declared the only

people who would be able to stop Indonesia's revolution from turning to the left: "are people who can stop the sun from rising in the east."

Informants in Singapore gave this account of the clash:

Sukarno whipped up the pro-communist students to a frenzy. Student leaders urged the others to attack the KAMI students. From the stadium the pro-communist students went to the university armed with stones and clubs.

"None of us want to deprive the armies in the field of anything they needed," Fulbright said, "and none of us wish to any way be accused of obstructing the supply of our troops."

Subsequently, Sen. Wayne Morse, D-Ore., announced to the Senate that he will call up in the Senate Wednesday his own amendment to terminate the authority Congress granted President Johnson in August 1964 to take whatever steps he feels are necessary

to defend South Viet Nam. Morse had held up a decision while awaiting the possibility of agreement by the 17 senators on a policy amendment in which he could join.

White House

President Johnson brought Democratic leaders of the Senate and House to the White House for a late afternoon conference—the regular weekly session—and got a prediction that the embattled authorization bill will pass easily this week.

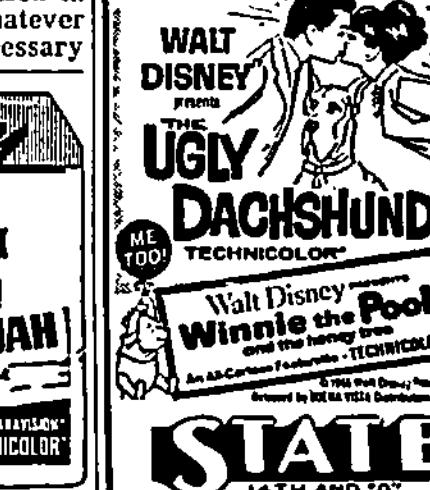

Senate leader Mike Mansfield of Montana told reporters:

"Our soldiers in Viet Nam are turning in one of the greatest performances in our nation's history, and we are not going to let them down. We hope to bring the military defense supplement authorization to a vote this week—and I anticipate we will pass it by a very wide margin."

Mansfield, said, an economic aid authorization for Viet Nam will be next.

Sen. Stuart Symington, D-Mo., was among those telling the Senate that debate on the authorization bill has become a hazard in debating Viet Nam policy.

"But those hazards are the essence of our democracy," Kennedy said in a speech prepared for a Hollywood, Fla., audience.

Stocks Are Mixed In Lively Market

New York (AP)—It was a run-away stock market Monday for issues in aerospace, airlines, color television, other electronics and special situations but pretty much of a stand-still market for blue chips.

Because more stocks rose than fell, it was the second day of recovery following the dismal streak of eight straight losing sessions.

Volume was heavy, totaling 9.92 million shares compared with 8.15 million Friday.

Here was a "swinging, trading type of market," according to one analyst, but the popular averages did very little because of the drab performance of many of their component blue chips.

The closely-watched Dow Jones average of 30 industrials actually took a loss of 1.11 at 951.89. Other averages rose slightly.

Gainers outnumbered losers by 673 to 545 among the 1,430 issues traded. New highs for the year totaled 90 and new lows 91.

The Associated Press average of 66 stock issues rose 27.1 with industrials up 1.1, railroads 2.0 and utilities unchanged.

Thirteen of the 15 most active stocks in the General Orders list unchanged and Eastern Air Lines lost 12.

Raytheon was the most active stock, up 54 at 450.20 shares.

Prices were irregularly higher on the American Stock Exchange. Volume was 1.1 million shares compared with 4.1 million Friday.

Corporate bonds were a bit stronger. U.S. Treasury bonds rebounded their downside.

Omahan Warns Of Teacher Strikes

A prominent Omaha educator warned Monday Nebraska teachers will probably take a militant stand in the near future unless their salary demands are met.

Dr. Vaughn Phelps, superintendent of Omaha Westside, commented at a meeting of state educators at the governor's mansion.

"This is not something to take lightly," he said. "It will come as a crash in our state. The same thing will happen

here as in Oklahoma, Utah and other places."

In Oklahoma and Utah, teachers boycotted schools for higher pay.

Phelps said teachers no longer are content to give their services to the public free of charge. He said they are demanding adequate pay in other parts of the country and getting it.

"These are good teachers that are going on strike. They are not looking for trouble. She said Nebraska cannot af-

ford to wait for a teachers strike.

"There is an urgency that we meet this problem immediately," she said. "We must avoid going through this terrible situation."

Mrs. Nichols said that while salaries are good in Omaha and Lincoln, the average out-state teacher could probably earn more money in nearly any other state.

Mrs. Richard Shot of Omaha, a member of the Governor's Education Committee, added: "Teachers are classed as professionals, yet they don't receive professional pay. We must do something about this."

However, State Sen. Cecil I. Craft of North Platte said money will not automatically solve all school problems. He said this takes hard work and dedication.

"I'm not so sure the more money you spend for education, the better education you get," Craft said.

William Norton of Osceola, chairman of the governor's committee, said school problems in Nebraska will continue to grow unless the state's tax structure is changed.

He said the property tax has been a deterrent to school reorganization in rural areas as well as general education development.

milestone," Morrison said. "This is the year before our 100th birthday."

He urged every Nebraska community to plan a "grass roots" celebration during the centennial celebration period of March 1, 1967, to Thanksgiving Day, 1967.

"This is a very challenging

ca could see how much the Vietnamese need our help then they too will understand why we are here."

Sgt. Lee David Anderson to his parents, Mr. and Mrs. Thure J. Anderson, 2436 Sheridan Blvd., several months ago.

Last Thursday, at Bong Son, a village 300 miles north of Saigon, in Viet Nam, Sgt. Anderson lost his life, his parents have been notified.

The duty he felt, Sgt. Anderson wrote, was "to my country and also the Republic of South Viet Nam. It only the people of Ameri-

ca could see how much the Vietnamese need our help then they too will understand why we are here."

Sgt. Anderson, who was proud that my country thinks I am good enough to represent them," said of his fighting. "It's my job." "We are going to win but it will take time and much money and lives."

Other survivors include his

widow and a son, David Lee, 7 months, of Guthrie, Ky.; a brother, Gene of Kearns, Utah, and a sister, Mrs. Edward

Evans of rural Roca.

Burial will be in Guthrie.

"Our great heritage is a background from which we can view the next century," he said.

That tired feeling — its cause and cure

In March Reader's Digest a doctor tells why the "chronic fatigue" that seems to afflict millions is not true fatigue.

Discover 6 steps to help you change your routine and find new sources of energy ... in March Reader's Digest now on sale.

To Be Studied

The firm will study, among other things, bidding and purchasing procedures, contractor selection methods, staffing and salary procedures and fiscal controls of the Roads Department.

The study will also delve into intergovernmental relationships of state, county and municipal roads and streets departments.

now will begin negotiating firm, for a contract to conduct with Ernst and Ernst, a Cleveland, Ohio, consulting firm, for a contract to conduct the study.

The changes were recommended by the U.S. Bureau of Public Roads, which will pay about two-thirds of the costs of the study.

The revised plan calls for an advisory committee, composed of six state highway officials, three state senators and one representative of the federal bureau, to oversee the study.

Greater Emphasis It also calls for greater emphasis on research into proper management practices.

At least one legislative committee member, Sen. William R. Skarda of Omaha, was critical of the new plan.

"If the Legislature had known this was going to happen, it wouldn't have authorized the study," he said.

Revised Proposal For Road Management Study Okayed

The Legislative Council's road study committee Monday approved a revised proposal for a study of the management practices of the State Roads Department.

The changes were recommended by the U.S. Bureau of Public Roads, which will pay about two-thirds of the costs of the study.

The revised plan calls for an advisory committee, composed of six state highway officials, three state senators and one representative of the federal bureau, to oversee the study.

Greater Emphasis It also calls for greater emphasis on research into proper management practices.

At least one legislative committee member, Sen. William R. Skarda of Omaha, was critical of the new plan.

"If the Legislature had known this was going to happen, it wouldn't have authorized the study," he said.

3 More Counties File Educational Service Petitions

Petition forms from Fillmore, Otoe and Brown counties were filed with the Secretary of State Monday, signaling the start of efforts to exclude those counties from the educational service units authorized by the 1965 legislature.

The filing brought to 80 the number of counties in which petitions will be circulated in an attempt to force local vote on the exclusion issue.

How Fast Can You Read?

A noted publisher in Chicago reports there is a simple technique of rapid reading which should enable you to double your reading speed and yet retain much more. Most people do not realize how much they could increase their pleasure, success and income by reading faster and more accurately.

According to this publisher, anyone, regardless of his present reading skill, can use this simple technique to improve his reading ability to a remarkable degree. Whether reading stories, books, technical matter, it becomes possible to read sentences at a glance and entire pages in seconds with this method.

To acquaint the readers of this newspaper with the easy-to-follow rules for developing rapid reading skill, the company has printed full details of its interesting self-training method in a new booklet, "How to Read Faster and Retain More" mailed free. No obligation. Send your request to: Reading, 635 Diversey, Dept. 8303, Chicago, Ill. 60614. A postcard will do. Please include your zip code.
